Mesa Systems has assisted many businesses relocating to Colorado with developing comprehensive employee relocation programs and logistics solutions. These programs are customized for our clients needs. Whether your relocating 10 to 200 employees, or relocating an entire office Mesa Systems can provide creative solutions for the most challenging relocation needs. Additional services:

- Prepare, estimate, monitor, and develop a realistic relocation budget.
- Assist with the organization of your relocation team, and manage the entire process from start to finish.
- Locate, negotiate, manage all necessary vendors and suppliers required to complete a successful relocation or start-up project.
- Outsource the entire relocation project, which lifts the logistical burden of the relocation process from your shoulders to ours.
- Protect your company's valuable records during the relocation process.
- Professionally install and disassemble modular office furniture systems.
- State of the art asset management programs.
- Worldwide logistics operations to serve any transportation need.
